PROFESSIONAL SUMMARY

Software Engineering graduate (BSc Hons, Cardiff Metropolitan University, 2026) with internship experience developing a full-stack web application using ASP.NET Core, SQL Server and Git in an Agile team. Hands-on project experience in Java, Spring Boot, JavaScript, TypeScript, PHP, MySQL and REST APIs, building database-driven web applications with role-based access. Seeking a Software Engineer role to deliver reliable, user-friendly software.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, TypeScript, C#, C++, C
Web Development: HTML, CSS, Bootstrap, PHP, React
Frameworks: ASP.NET Core, React
Databases: Microsoft SQL Server, MySQL
APIs and Architecture: REST APIs, Service-Oriented Architecture (SOA)
Version Control: Git, GitHub
Tools: Visual Studio Code, Visual Studio, NetBeans, Eclipse, RStudio, Figma
Concepts: Object-Oriented Programming (OOP), Data Structures and Algorithms, Agile Development
Soft Skills: Problem Solving, Team Collaboration, Time Management, Attention to Detail

EXPERIENCE

Software Engineering Intern **Dec 2024 – Jun 2025**
TRACE – Theory to Trade, Maradana, Sri Lanka

- Supported development of a real-world full-stack web application using ASP.NET Core, SQL Server, HTML, CSS and Git.
- Built user interface components and integrated application features with SQL Server databases.
- Tested new features and collaborated within an Agile development team.
- Gained practical experience in professional software development workflows, from build to testing.

PROJECTS

T2T Platform
Technologies: Java, Spring Boot, TypeScript, JavaScript, HTML, CSS, MySQL, REST APIs

- Built a role-based web platform connecting students, mentors, clients and universities to collaborate on industry IT projects.
- Implemented student profiles, mentor assignment, real-time progress tracking, project proposal management and feedback workflows.
- Added portfolio-based talent showcasing and centralized academia–industry communication in one platform.

Debra Event Management System Expansion
Technologies: Java, Microsoft SQL Server, HTML, CSS, JavaScript

- Designed a service-oriented (SOA) solution integrating Debra's event management system with partner companies, social media platforms and mobile apps.
- Developed partner registration, event creation, ticket management and sales tracking features.
- Built APIs for ticket sales and commission management, giving partners and Debra full visibility of sales and earnings.

Mega City Cab Management System
Technologies: Java, HTML, CSS, MySQL

- Developed a Java application for Megacity Cab, Colombo, automating cab bookings, customer registration, fare calculation and driver and vehicle management.
- Implemented login authentication and automated billing with tax and discount calculations, replacing manual processes.

Cineplex Movie Theater Website
Technologies: PHP, JavaScript, HTML, CSS, Microsoft SQL Server

- Built a database-driven website with movie listings, showtimes, online ticket booking, seat availability and promotions.
- Implemented user registration and a multi-role system (Admin, Staff, Customer) for managing bookings.

The Gallery Café Restaurant Website
Technologies: PHP, JavaScript, Bootstrap, HTML, CSS, Microsoft SQL Server

- Developed a database-driven website with menus, table reservations, online pre-ordering and cuisine search.
- Implemented admin and staff roles for managing reservations, orders and website content.

ADHD Support Website
Technologies: PHP, JavaScript, Bootstrap, HTML, CSS, Microsoft SQL Server

- Built an educational website with resources, interactive activities and tools to help parents and caregivers manage ADHD symptoms.

Smart Portfolio Management System
Technologies: PHP, MySQL, JavaScript, Bootstrap, Python, scikit-learn | Project files

- Developed a web-based portfolio management system with secure login, profile and portfolio management, QR code sharing, and Stripe payments for PDF downloads (FPDF).
- Built an AI career module with a trained machine-learning model that finds a user's skills and skill gaps, scores their profile against job listings, and suggests portfolio updates for the user to approve.

EDUCATION

BSc (Hons) Software Engineering **Dec 2024 - Feb 2026**
Cardiff Metropolitan University
Relevant coursework: Advanced Programming, Analytics and Business Intelligence, Professional and Ethical Issues in IT, Software Engineering Dissertation

Higher Diploma in Computing and Software Engineering **Nov 2022 - Sept 2024**
Cardiff Metropolitan University

Certificate in Computer Science **March 2022 - July 2022**
National Institute of Business Management (NIBM)

G.C.E. Advanced Level and Ordinary Level
Mahamaya Girls' College, Kandy

CERTIFICATIONS AND COURSES

- Python for Beginners
- Business Analysis Basics
- Object-Oriented Programming in Java
- SQL analytics
- Web design for beginners
